

Lockridge Medical Centre

Building a Healthier Community

Fee Brochure

The Lockridge Medical Centre is committed to the provision of quality medical care to the community of Lockridge and surrounding suburbs. Established in 1978, the practice doctors and patients have contributed to the training of a generation of medical students and postgraduate doctors. As a teaching practice, we work hard to maintain a high standard of care.

Lockridge Medical Centre

Lockridge Medical Centre is a private-billing practice. However, we do bulk bill children under 16 years of age, pensioners and health care card holders.

At Lockridge Medical Centre the quality care that you receive is a product of the dedication and expertise of our staff and a well-equipped facility. Unfortunately, the reality today is that Medicare bulk-billing rebates no longer cover the cost of providing high quality care.

The costs associated with running a practice increase every year (staff wages, practice rent, cost of specialised equipment. Computers and so on), but the Medicare return to practices has changed very little over the last 10 years and making it very difficult to sustain a quality practice on bulk-bill fees alone.
